

FERTILIZER STORAGE PROGRAM

Planning your 2027 fertilizer buy? Count on FGLK rail storage.

As you lock in volumes and pricing for 2027, remember your rail storage option. Buy what makes sense for your business and keep loaded **private** railcars on FGLK track until you need them, any time of year.

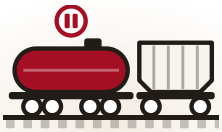

1

Buy on your terms

Commit to the volume and timing that fit your plan, not just your tank space.

2

We hold the cars

Loaded private cars are held on FGLK track under program storage terms.

3

Call cars in as needed

We switch cars to your facility or to an FGLK transload site for truck delivery.

120 hrs

Free time included to schedule unloading

Low daily rate

Per-car storage after free time

Contact us for current rates.

Reduced

In-and-out storage switch fees

Year-round

Available all year, running successfully since 2018

PRIVATE CARS ONLY

This program applies only to private railcars (customer-owned or leased) loaded with dry or liquid fertilizer. **System cars (railroad-supplied equipment) are not eligible.**

Building your 2027 plan?

Talk to us as you make your buying decisions. Send us your expected car count and products so we can plan for your cars.
